JASHTECH

TECHNICAL RIDER

HAMBURG

Compact one-page version - clubs and open airs

This is JASHTECH's preferred technical setup. The artist is flexible and happy to work with comparable alternatives when they are communicated in advance.

MINIMUM TECHNICAL SETUP

- Players: Minimum 2 x Pioneer CDJ-2000NXS or newer. 3 players are preferred when available.
- Hot Cues: Fully operational Hot Cue buttons and USB ports are essential.
- Mixer: Pioneer DJM-900NXS2 or newer preferred. An Allen & Heath Xone mixer is possible if communicated in advance.
- Monitoring: One clear and reliable booth monitor.
- Recording: One accessible stereo Record Out for the artist's Howler recorder.
- Format: Standalone performance from Rekordbox-exported USB drives. No laptop or Pro DJ Link required.

PERFORMANCE & ACCESS

Typical set length: 1-4 hours. All timetable positions are possible. A 20-minute technical check before the set is appreciated when possible, but not mandatory.

RECORDING

Audio and video recording are welcome. Please contact JASHTECH before publication, livestreaming or promotional use.

Alternatives are possible. If any part of the requested setup is unavailable, please send the planned equipment list in advance so the performance can be prepared accordingly.
